Juice | Milk | Soda **2**

Side Choices: One included with kids meal each additional side **1.50**

Steak fries

Chips

Sweet Potato Fries

Applesauce

How did we get our name? In December of 2008, Old Forge was established in Danville, PA. We chose our name because of Danville's famous Iron history. Large stone furnaces or "forges" were used to produce iron. In 1845, Danville, PA was the first town in the country to manufacture the T-Rail or "railroad tracks." That allowed railroad transportation and industry in our country to grow rapidly.
